

The Leibniz Institute for Astrophysics Potsdam (AIP) invites applications for a

## Postdoctoral position in the Cosmology section

to be filled at the earliest possible date. The position is part of the Joint Chinese-German research group entitled “The cosmic web and its influence on galaxy formation” led by Dr Noam Libeskind. The successful applicant will work on the analysis of cosmological simulations within this context. Therefore we encourage applications from scientists with experience in running or analysing cosmological simulations and with experience in Large Scale Structure and galaxy formation to apply. As the position is part of a German-Chinese research team, it is expected that the applicant travel to china periodically throughout the duration of the project.

The position is offered for a period of three years. The fellowship provides a salary based on the German public service scale (TV-L E13). Employer contributions to medical and dental insurance, maternity leave, and retirement benefits are included. The AIP is an equal opportunity employer who values diversity and particularly encourages women and other underrepresented groups to apply. Applications for and inquiries about the position should be sent to [bewerbung\\_2018-33@aip.de](mailto:bewerbung_2018-33@aip.de)

To apply, please send a single PDF file containing a curriculum vitae, publication list, as well as a research plan (max 2 pages) to the given address. Applicants should also arrange for three references to be sent by the application deadline, 14 January 2019.
